ISSN 0305-182X

Origination by Setrite, Hong Kong

Printed and bound in Great Britain at the Alden Press, Oxford

Contents

NUMBER 1, JANUARY 1992

1 *J. F. Wolfaardt:* Maxillofacial prosthetics — an international perspective of the British status quo

13 *E. Yontchev and G. E. Carlsson:* Long-term follow-up of patients with orofacial discomfort complaints

21 *C. J. Arcoria, J. P. Gonzalez, B. A. Vitasek and M. J. Wagner:* Effects of ultrasonic instrumentation on microleakage in composite restorations with glass ionomer liners

31 *N. Satou, A. M. Khan, K. Satou, J. Satou, H. Shintani, K. Wakasa and M. Yamaki: In-vitro* and *in-vivo* wear profile of composite resins

39 *L. V. Christensen and S. J. Donegan:* Preliminary observations on oral blood flow

49 *J. Vaidyanathan, T. K. Vaidyanathan, Y. Wang and T. Viswanadhan:* Thermoanalytical characterization of visible light cure dental composites

65 *G. Soh:* Quantification of noble alloy used in 'porcelain-fused-to-metal' restorations

71 *J. T. Keesler, L. V. Christensen, S. J. Donegan and B. P. Austin:* A transcranial radiographic examination of the temporal portion of the temporomandibular joint

85 *A. Milosevic:* The influence of surface finish and *in-vitro* pellicle on contact-angle measurement and surface morphology of three commercially available composite restoratives

99 Announcements

NUMBER 2, MARCH 1992

101 *E. G. Absi, M. Addy and D. Adams:* Dentine hypersensitivity — the effect of toothbrushing and dietary compounds on dentine *in vitro*: an SEM study

111 *M. S. Bapna, S. Mukherjee and R. Murphy:* The antimicrobial effect of an iron-binding agent on *Streptococcus mutans*

115 *J. S. Rees and P. H. Jacobsen:* Stresses generated by luting resins during cementation of composite and ceramic inlays

123 *H. Murtomaa, M. Könönen and P. Laine:* Age and maintenance of removable dentures in Finland

129 *S. J. Donegan, L. V. Christensen and A. M. G. Kaltenbrunner:* Surface electromyographic estimates of recruitment/rate coding of masseteric motor units

137 *E. F. Corbet, C. J. Holmgren and S. K. Pang:* Use of shell crowns in Hong Kong dental hospital attenders

145 *A. E. Athanasiou:* Number and intensity of occlusal contacts following surgical correction of mandibular prognathism

151 *D. Sinobad, W. M. Murphy, R. Huggett and S. Brooks:* Bond strength and rupture properties of some soft denture liners

161 Society of Oral Physiology Store Kro Group — Seventeenth Biennial Meeting, Abstracts of Selected Presentations

NUMBER 3, MAY 1992

201 *E. L. Schiffman, J. R. Fricton and D. Haley:* The relationship of occlusion, parafunctional habits and recent life events to mandibular dysfunction in a non-patient population

225 *P. K. Vallittu and V. P. Lassila:* Reinforcement of acrylic resin denture base material with metal or fibre strengtheners

231 *P. J. Knibbs and E. R. Smart:* The clinical performance of a posterior composite resin restorative material, Heliomolar R.O.®: 3-year report

239 *P. L. Millstein:* Determining the accuracy of gypsum casts made from type IV dental stone

245 *K. Ogata, A. Ishii and I. Nagare:* Longitudinal study on torque transmitted from a denture base to abutment tooth of a distal extension removable partial denture with circumferential clasps

253 *L. V. Christensen and J. Orloff:* Reproducibility of mandibular joint vibrations (electrovibratography)

265 *A. M. Cassin and G. J. Pearson:* Microleakage studies comparing a one-visit indirect composite inlay system and a direct composite restorative technique

271 *A. Westphal, M. Divry and I. Ley:* A preliminary study of manducatory behaviour influenced by stress and dental occlusion

281 *K. W. Boening, M. H. Walter and P.-D. Reppel:* Non-cast titanium restorations in fixed prosthodontics

289 *M. T. Marunick, B. E. Mathes and B. Klein:* Masticatory function in hemimandibulectomy patients

297 *S. M. Cohen, T. K. Vaidyanathan and N. Tanabe:* Digital imaging techniques for dental alloy castability quantification

309 Book reviews

NUMBER 4, JULY 1992

313 *A. Ekfeldt and S. Karlsson:* Influence of lower lip support on recording of vertical dimension in edentulous patients

319 *A. Zaimoğlu, L. Karaağaçlioğlu and S. Üçtaşli:* Influence of porcelain material and composite luting resin on microleakage of porcelain laminate veneers

329 *A. Tallgren and G. Tryde:* Swallowing activity of lip muscles in patients with a complete upper and a partial lower denture

343 *A. Arikan:* Effects of nickel-chrome dental alloys used in dentistry on saliva and serum nickel levels, peripheral T-lymphocytes and some other blood parameters

353 *R. G. Jagger and C. Wood:* Signs and symptoms of temporo-mandibular joint dysfunction in a Saudi Arabian population

361 *A. M. Khan, H. Suzuki, Y. Nomura, M. Taira, K. Wakasa, H. Shintani and M. Yamaki:* Characterization of inorganic fillers in visible-light-cured dental composite resins

371 *S. Darendeliler, H. Darendililer and T. Kinoğlu:* Analysis of a central maxillary incisor by using a three-dimensional finite element method

385 *P. K. Vallittu and V. P. Lassila:* Effect of metal strengthener's surface roughness on fracture resistance of acrylic denture base material

393 *J. Ehrlich, N. Hochman and A. Yaffe:* The masticatory pattern as an adjunct for diagnosis and treatment

399 *L. V. Christensen and M.O. Hutchins:* Methodological observations on positive and negative work (teeth grinding) by human jaw muscles

413 *M. M. Koller, L. Merlini, G. Spandre and S. Palla:* A comparative study of two methods for the orientation of the occlusal plane and the determination of the vertical dimension of occlusion in edentulous patients

427 *C. S. Shi, G. Ouyang and T. W. Guo:* Frequency analysis of electromyographic signals in mandibular elevators at maximum clench level

NUMBER 5, SEPTEMBER 1992

435 *B. S. Krogstad, B. L. Dahl, T. Ecketsberg and B. Øgaard:* Sex differences in signs and symptoms from masticatory and other muscles in 19-year-old individuals

441 *C. H. Jooste and C. J. Thomas:* Complete mandibular denture stability when posterior teeth are placed over a basal tissue incline

449 *Y. Mao, C.-S. Chi and T. W. Guo:* Discrimination of clenches at varied jaw positions using autoregressive model coefficients of myoelectrical activities of anterior temporal and masseter muscles

457 *L. Karaağaclioğlu, A. Zaimoğlu and A. C. Akören:* Microleakage of indirect inlays placed on different kinds of ionomer cement linings

471 *L. V. Christensen:* Physics and the sounds produced by the temporomandibular joints. Part 1

485 *L. Westling and E. Helkimo:* Maximum jaw opening capacity in adolescents in relation to general joint mobility

495 *R. Buchner, H. W. Van Der Glas, J. E. I. G. Brouwers and F. Bosman:* Electromyographic parameters related to clenching level and jaw-jerk reflex in patients with simple type of myogenous cranio-mandibular disorder

513 *S. Murakami, H. Murata, S. Sadamori, N. Shigeto and T. Hamada:* Shrinkage of tissue conditioners with time — effect of the particle size in powder and the EtOH content in liquid

521 *C.-S. Shi and Z. Y. Hua:* Relationship between autoregressive model coefficients of EMG and its potential of jaw closing muscles at rest position and clenching

527 *N. Yoshida, S. Minagi, T. Sato, S.-I. Kadoya and T. Matsunaga:* Effect of mechanical pressure on the blood flow in human palatal mucosa measured by temperature controlled thermoelectrical method

535 *A. S. El-Gheriani:* A new guide for positioning of maxillary posterior denture teeth

539 *C.-S. Shi and Y. An:* Observation of proportionality of myoelectrical activity of anterior temporalis to masseter muscle during clenching at varied jaw positions

NUMBER 6, NOVEMBER 1992

545 *J. J. Marbach:* The 'temporomandibular pain dysfunction syndrome' personality: fact or fiction?

561 *L. V. Christensen and M. M. Ash:* Remarks on probability theory and TMJ diagnosis

569 *B. R. Lang, M. Jaarda and R.-F. Wang:* Filler particle size and composite resin classification systems

585 *K. Ogata, T. Miyake and M. Okunishi:* Longitudinal study on occlusal force distribution in lower distal-extension removable partial dentures with circumferential clasps

595 *P. G. T. Howell, C. W. L. Johnson, S. Ellis, I. B. Watson and I. Klineberg:* The recording and analysis of EMG and jaw tracking. I the recording procedure

607 *C. J. Arcoria, J. R. Butler, M. J. Wagner and B. A. Vitasek:* Bending strength of Fuji® and Ketac® glass ionomers after sonication

615 *L. V. Christensen:* Physics and the sounds produced by the temporomandibular joints. Part II

629 *S. M. Jenkins, P. M. H. Dummer and M. Addy:* An *in vitro* study of the influence of X-ray beam angulation on the radiographic images of the amelocemental junction and simulated alveolar crest

639 *B. Stegenga, M. L. Broekhuijsen, L. G. M. De Bont and J. D. Van Willigen:* Bite-force endurance in patients with temporomandibular joint osteoarthrosis and internal derangement

649 *Y. Munakata and S. Kasai:* Contribution of the mucosal tactile information to the mandibular position sense in patients wearing dentures

655 *W. N. Williams, J. Coffey, G. E. Turner, M. E. Crary, R. Capen and P. W. Wharton:* Level of accuracy and degree of precision in attempting to maintain steady levels of biting force

663 *J. Dos Santos and T. P. Nowlin:* The effect of splint therapy on TMJ position measured by the Gerber Resiliency Test

671 *H. N. Alkumru and G. Cölok:* Hemifacial microsomia and hypodontia: a case report

677 Index to Volume 19
